(Page 1of 1) Whole House Fan

#### CF2R-MCH-31a-H User Instructions

#### Section A. Whole House Fan Measurement Procedures

- Select the procedure used to measure whole house fan Airflow.
- 2. Select the procedure used to measure whole house fan Watts.

#### Section B. Whole House Fan (WHF) Equipment Information

- Fan name will be auto populated from CF1R.
- Enter the location where each whole house fan is installed in the house.
- Enter the name of the manufacturer for each whole house fan installed in the house.
- Enter the model number for each whole house fan installed in the house.
- 5. Enter the measured airflow in CFM for each whole house fan installed in the house.
- Enter the measured the Watts for each whole house fan installed in the house.

#### Section C. Whole House Fan Compliance Calculations

- This field is automatically populated from the CF1R.
- This field is automatically populated from Section B.
- This field is automatically populated from the CF1R.
- This field is automatically calculated using information from section B.

#### **D. Compliance Statement**

To comply, the total installed whole house fan airflow must equal to or greater than the required airflow and the installed fan efficacy must be less than or equal to the required fan efficacy.

#### **E. Additional Requirements**

- To qualify, for the whole house fan compliance credit, the installed whole house fan must be certified to the Energy Commission and be listed in the Energy Commission's Modernized Appliance Efficiency Database as an approved model, link located here Modernized Appliance Efficiency Database System (MAEDBS).
- cumentation the second The homeowner shall be provided with user instructions documentation that describes the proper use of the whole house fan necessary
