RE: Cal Energy Name Change

To whom this may concern,

Hello I would like to start off by saying Cal Energy is by far one of the best providers we as HERS Raters can ask for. The customer service they provide, the simplicity and efficiency of their website, and kindness and willingness to help in any given situation is by far one of the best I have seen yet. I have been a Rater since 2016 and after working with Cal Energy, my customers are not only satisfied of certification turn arounds but love the fact that the process is even simpler then ever. That is all credit we owe to Cal Energy Registry. I am certified with both Calcerts and Cal Energy, respect and work with both companies, but I truly don't see any issue with CHEERS to Cal Energy Registry name change. I have had a few cases when I told customers the name Cal Energy Registry and it was even easier for them to understand what I am talking about. I mean the name says it all. With the amount of dedication, help, and commitment they have for our industry I don't believe Cal Energy Registry can ever be confused with any other name.

Thank you,

Maor Aizenkut
