STATE OF CALIFORNIA

STATE ENERGY RESOURCES  
CONSERVATION AND DEVELOPMENT COMMISSION

RESOLUTION ADOPTING  
REVISED RENEWABLES PORTFOLIO STANDARD 2014-2016 VERIFICATION  
RESULTS REPORT FOR TRUCKEE DONNER PUBLIC UTILITY DISTRICT  
FOR COMPLIANCE PERIOD 2

**WHEREAS**, Public Utilities Code Section 399.25(b) requires the California Energy Commission to design and implement an accounting system to verify compliance with California's Renewables Portfolio Standard (RPS) by retail sellers and local publicly owned electric utilities (POUs), to ensure that electricity generated by an eligible renewable energy resource is counted only once for the purpose of meeting the renewables portfolio standard of this state or any other state, and for verifying retail product claims in this state or any other state; and

**WHEREAS**, the California Energy Commission, in collaboration with the California Public Utilities Commission, has adopted regulations and guidelines addressing its responsibilities under Public Utilities Code Section 399.25(b) as well as other provisions of the law governing California's RPS, the *Enforcement Procedures for the Renewables Portfolio Standard Local Publicly Owned Electric Utilities* (RPS POU Regulations) and the *Renewables Portfolio Standard Eligibility Guidebook, Ninth Edition (Revised)* (RPS Eligibility Guidebook), respectively; and

**WHEREAS**, in furtherance of Public Utilities Code Section 399.25(b) the California Energy Commission prepares a Renewables Portfolio Standard Verification Results report on its findings on the amount of eligible renewable energy procured each compliance period by POUs subject to California's RPS; and

**WHEREAS**, the Renewables Portfolio Standard Verification Results reports apply the statutory requirements as specified in Public Utilities Code Section 399.11, et seq., the RPS POU Regulations, RPS Eligibility Guidebook, and the California Energy Commission staff *Renewables Portfolio Standard Verification Methodology Report, Second Edition*, in determining the amount of renewable energy procurement that qualifies toward each POU's California RPS procurement requirements; and

**WHEREAS**, the California Energy Commission adopted a Renewables Portfolio Standard Verification Results Truckee Donner Public Utility District Compliance Period 2 (2014-2016) report on March 12, 2019; and

**WHEREAS**, the scope of the Renewables Portfolio Standard Verification Results Truckee Donner Public Utility District Compliance Period 2 (2014-2016) report included RPS procurement verification findings for Truckee Donner Public Utility District; and

**WHEREAS**, the Renewables Portfolio Standard Verification Results Truckee Donner Public Utility District Compliance Period 2 (2014-2016) report addressed the following items:

- The POU's procurement target and portfolio balance requirements.
- The amount of eligible renewable energy retired and the amount applied to meet the compliance period requirements, both shown by Portfolio Content Category (PCC) and other classifications.
- Any deficits in meeting the RPS procurement requirements for the compliance period.
- Any optional compliance measures being applied by the POU for the compliance period.
- A calculation of excess procurement accumulated in this compliance period.
- A summary of the POU's excess procurement and historic carryover, if any, including any prior balance, the amount accumulated and used in the current compliance period, and the ending balance.

**WHEREAS**, since adoption of the Renewables Portfolio Standard Verification Results Truckee Donner Public Utility District Compliance Period 2 (2014-2016) report, Truckee Donner Public Utility District, in consultation with California Energy Commission staff, identified a more optimal way to apply Renewable Energy Credits for Compliance Period 2 and changed those values in the RPS Online System; and

**WHEREAS**, the changes made by Truckee Donner Public Utility District resulted in different amounts of accumulated and applied excess procurement values than appeared in the Renewables Portfolio Standard Verification Results Truckee Donner Public Utility District Compliance Period 2 (2014-2016) report previously adopted on March 12, 2019, but do not impact the compliance findings in that report; and

**WHEREAS**, California Energy Commission staff are recommending adoption of a revised report entitled *Renewables Portfolio Standard Verification Results (Revised) Truckee Donner Public Utility District Compliance Period 2 (2014-2016)* in order to correct the accumulated and applied excess procurement values so it corresponds to what now appears in the RPS Online System; and

**WHEREAS**, the California Energy Commission has considered the *Renewables Portfolio Standard Verification Results (Revised) Truckee Donner Public Utility District Compliance Period 2 (2014-2016)*, including any minor non-substantive changes noted during the May 13, 2020 Business Meeting, and accepts and approves the *Renewables Portfolio Standard Verification Results (Revised) Truckee Donner Public Utility District Compliance Period 2 (2014-2016)*, with any noted minor, non-substantive changes; and

**THEREFORE BE IT RESOLVED**, the California Energy Commission hereby adopts the *Renewables Portfolio Standard Verification Results (Revised) Truckee Donner Public Utility District Compliance Period 2 (2014-2016)* and authorizes the Executive Director, or his designee, make any necessary minor typographical edits, and distribute and post on the California Energy Commission website as necessary.

**CERTIFICATION**

The undersigned Secretariat to the Commission does hereby certify that the foregoing is a full, true, and correct copy of a Resolution duly and regularly adopted at a meeting of the CEC held on May 13, 2020.
