RESOLUTION NO. 2014-070

**RESOLUTION OF THE CITY COUNCIL OF THE
CITY OF CORONA, CALIFORNIA, ESTABLISHING
COST-EFFECTIVE ENERGY STORAGE TARGETS
IN ACCORDANCE WITH THE REQUIREMENTS
OF THE STATE OF CALIFORNIA'S ENERGY
STORAGE LAW UNDER ASSEMBLY BILL 2514**

WHEREAS, State Assembly Bill 2514 (Chapter 469, Statutes of 2010) added sections 2835 and 2836 to the Public Utilities Code; and

WHEREAS, Section 2836(b) (1) of the Public Utilities Code requires the governing board of each local publicly owned utility (POU) to initiate a process to determine appropriate targets, if any, for the POU to procure viable and cost-effective energy storage systems to be achieved by December 31, 2016, and December 31, 2020; and

WHEREAS, Section 2836(b) (2) of the Public Utilities Code requires the governing board of each POU to adopt procurement targets, if determined to be appropriate, by October 1, 2014; and

WHEREAS, Section 2836(b) (3) of the Public Utilities Code requires the governing board of each POU to reevaluate these determinations not less than once every three years; and

WHEREAS, Section 9506 (3) of the Public Utilities Code requires each POU to report to the California Energy Commission the energy storage system procurement targets, if any, adopted by the POU's governing board; and

WHEREAS, the City of Corona (City) operates a municipal electric utility; and

WHEREAS, as a municipal electric utility, the City is generally subject to the legislative and regulator requirements applicable to POU's; and

WHEREAS, on March 20, 2013, the City Council adopted Resolution 2013-020, initiating a process to determine appropriate targets, if any, for viable and cost-effective energy storage systems pursuant to AB 2514; and

WHEREAS, to conform to California Public Utilities Code § 2836(b) (1) and § 2836.6, staff evaluated the viability and cost-effectiveness of applicable energy storage technologies to serve their electric utility customers; and

WHEREAS, the evaluation included applicable energy storage technologies and costs, load forecasts, planned distribution system upgrades, potential on-site customer generation and market alternatives; and

WHEREAS, based on that evaluation, staff found that the application of utility-owned and operated energy storage technology to serve their electric utility customers over the next three years is more costly than the value of benefits; and

WHEREAS, it is anticipated that with the passage-of-time and improved technology energy storage systems will become cost-competitive with other resources; and

WHEREAS, to capture market opportunities, it is recommended that the City establish energy storage targets for cost-effective applications equal to one (1) percent of the peak load during calendar years 2015 and 2020, with installation no later than the end of calendar years 2016 and 2021. However, if a cost-effective applicable energy storage application is not identified, the appropriateness of these targets will be reevaluated by June 2016 and 2021 respectively; and

WHEREAS, the City Council has reviewed staff's evaluation and recommendation and determined that a target to procure cost-effective energy storage systems for DWP is appropriate.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Corona, California, as follows:

SECTION 1. The recitals and findings set forth above are true and correct and are hereby incorporated in their entirety as part of this Resolution by this reference.

SECTION 2. To satisfy the City's obligations pursuant to AB 2514, the Council determines that establishing energy storage targets for cost-effective applications equal to one (1) percent of the 2015 and 2020 peak load with installation no later than the end of 2016 and 2021 is appropriate.

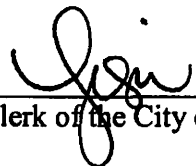

SECTION 3. If a cost-effective applicable energy storage application is not identified, the appropriateness of these targets will be reevaluated by June 2016 and 2021 respectively.

PASSED, APPROVED AND ADOPTED this 17th day of September,
2014.

Mayor of the City of Corona, California

ATTEST:

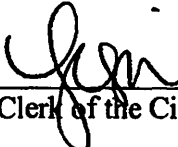

City Clerk of the City of Corona, California

CERTIFICATION

I, Lisa Mobley, City Clerk of the City of Corona, California, do hereby certify that the foregoing Resolution was regularly passed and adopted by the City Council of the City of Corona, California, at an adjourned regular meeting thereof held on the 17th day of September, 2014, by the following vote:

AYES:	HALEY, MONTANEZ, SCOTT, SPIEGEL
NOES:	NONE
ABSENT:	NONE
ABSTAINED:	NONE

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the City of Corona, California, this 17th day of September, 2014.

City Clerk of the City of Corona, California

(SEAL)
