## **ENGIE Impact Comments on the VGI section of the DER Roadmap**

We thank the California Energy Commission for the opportunity to comment on the DER Research Roadmap, and we make two comments that focus specifically on Vehicle Grid Integration (VGI): (1) We recommend that the VGI priorities in the DER Roadmap are consistent with those in the VGI Working Group; alignment between both efforts is important to drive real progress on VGI. (2) We recommend that the VGI Data Program get further prioritized in the DER Roadmap, so it's classified as "high priority", consistent with the recommendations made in the VGI Working Group.
