Re: Turlock Irrigation District's ("TID") AB 2514 Energy Storage Targets

Dear Mr. Mathias:

In compliance with Assembly Bill 2514 the Board of Directors of TID ("TID Board") directed staff to review available energy storage systems and if appropriate recommend to the TID Board energy storage procurement targets to be achieved by December 31, 2016, and December 31, 2021. TID staff completed a lengthy study of energy storage systems and presented the results of such study to the TID Board. On its September 23rd public meeting, the TID Board determined that no energy storage procurement targets will be adopted at this time (see attached TID Board Resolution No. 2014-87).

Please contact me if you have any questions.
