Notice to Consider Adoption of the Renewables Portfolio Standard Verification Results for San Francisco Public Utilities Commission – Hetch Hetchy Power Compliance Period 2, (2014-2016) Staff Draft Report

The California Energy Commission (CEC) will hold a remote-access business meeting on:

July 8, 2020
10:00 a.m.
Remote Access Only

The business meeting will be held remotely, consistent with Executive Orders N-25-20 and N-29-20 and the recommendations from the California Department of Public Health to encourage physical distancing to slow the spread of COVID-19. The public is able to participate and observe the business meeting consistent with the direction in these Executive Orders. More information about the July 8, 2020, business meeting, including the full agenda and instructions for participation is available on the CEC’s [website](https://www.energy.ca.gov/proceedings/business-meetings) at <https://www.energy.ca.gov/proceedings/business-meetings>.

As part of the July 8, 2020 Business Meeting, the CEC, will consider adopting the *Staff Draft Report Renewables Portfolio Standard Verification Results San Francisco Public*

Utilities Commission – Hetch Hetchy Power Compliance Period 2, (2014-2016) (RPS POU Verification Results Draft Report) for the San Francisco Public Utilities Commission (SFPUC) – Hetch Hetchy Power.

Background

The proposed *RPS POU Verification Results Draft Report* for SFPUC – Hetch Hetchy Power details CEC staff’s verification findings of renewable energy procurement claims submitted by SFPUC – Hetch Hetchy Power for Compliance Period 2 (CP 2) of the Renewables Portfolio Standard (RPS), covering the years 2014 to 2016. A total of 43 local publicly owned electric utilities (POUs) reported claims for CP 2. SFPUC – Hetch Hetchy Power is the final local publicly owned electric utility (POU) with pending verification results for CP 2. The CEC previously adopted the RPS POU Verification Results Reports for the other 42 POUs at regularly scheduled business meetings.

The CEC verifies the RPS procurement claims of both retail sellers and POUs. The *Enforcement Procedures for the Renewables Portfolio Standard for Local Publicly Owned Electric Utilities* establishes the rules and procedures by which the CEC assesses a POU’s compliance with RPS procurement requirements. The methods used by the CEC to verify procurement claims for RPS program participants are generally described in the *Renewables Portfolio Standard Eligibility Guidebook, Ninth Edition (Revised)* and further detailed in the *Renewables Portfolio Standard Verification Methodology Report, Second Edition*. [These documents](#) can be found at <https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard>.

Summary claims details tables are posted to provide detailed information about SFPUC – Hetch Hetchy Power’s *RPS POU Verification Results Draft Report*. The summary claims details provide the RPS claims reported for each compliance year, and include detailed information on claims deemed eligible, claims determined to be ineligible, and claims withdrawn by SFPUC – Hetch Hetchy Power.

On June 16, 2020, the *RPS POU Verification Results Draft Report* was posted for public comment. Two public comments were received. CEC staff considered these comments and determined that no changes to the report were needed. The [RPS POU Verification Results Draft Reports](#) are available at <https://www.energy.ca.gov/programs-and-topics/programs/renewables-portfolio-standard/renewables-portfolio-standard-1-1>.
