Do not industrialize Big Sur

Please do not place a wind farm off the coast in Big Sur, Southern Monterey County. These are protected waters and sacred lands. Industrializing this area would be akin to placing a solar farm on the pyramids at Giza.

The logistical problems associate with maintenance of an offshore facility should be enough of a deterrent - there are much better areas suited for such a project which do not pose environmental impacts and risks that this proposal will create.

Leave Big Sur alone, it doesn't need "improvement".
