**RE: Docket 20-PSDP-01 - Application for Confidential Designation – King City  
Community Power’s Power Source Disclosure Form**

Dear Mr. Bohan:

Pilot Power Group, LLC, (“PILOT”) on behalf of King City Community Power (“KCCP”) by this Application for Confidential Designation respectfully requests protection of certain information provided to the Commission in the attached Power Source Disclosure form consistent with Title 20 California Code of Regulations (“CCR”) Sections 2501 *et seq.*

Please feel free to contact me at (858) 678-0118 should you or Staff have any questions or require additional information regarding this Application. Thank you for your consideration of our request.

Sincerely,

A handwritten signature in black ink, appearing to read "Andy Anderson", with a long horizontal flourish extending to the right.

Andy Anderson

**APPLICATION FOR CONFIDENTIAL DESIGNATION**  
**King City Community Power**  
**Power Source Disclosure Form**  
**July 20, 2020**

1. *Specifically indicate those parts of the record which should be kept confidential.*

KCCP requests that the following information remain confidential, as also indicated by the orange\* highlighted cells on the attached PSD Report in Excel worksheet format:

<b>Form</b>	<b>Information to be held confidential</b>
PSDP Schedule 1	Retail Sales MWh and Specified/Unspecified procurement MWh totals in cells Q7:Q13 Directly Delivered Renewable MWh purchases in cells M16:P27; Firmed-And Shaped Import MWh purchases in cells M30:Q40.
PSDP Schedule 2	Total Unbundled RECs in cell R9; Retired Unbundled RECs: Total Retired MWh in cells M12:M21.
PSDP Schedule 3	Adjusted Net Procured MWh in cells C13:C23; Unspecified Electricity in cell C24; Total Purchases in cell C25; Total Retail Sales in cell D27.

\*Additionally, for ease of identification, KCCP has shaded orange all cells containing information it seeks to keep confidential.

2. *State the length of time the record should be kept confidential, and provide justification for the length of time.*

KCCP requests that the identified information be kept confidential until June 1, 2021. This specific term is requested to align the protection of data provided to the CEC in this form with treatment provided in other contexts, most specifically by the CPUC under its confidentiality program.

This information should be kept confidential because: (1) the information is not otherwise publicly available or readily discoverable in the form or detail provided at this time; (2) the information is market sensitive and constitutes trade secrets in terms of disclosing KCCP's very recent wholesale and retail activities, and (3) the release of this information will result in loss of competitive advantage in the wholesale and retail marketplaces relative to KCCP's ability to negotiate future contracts for the purchase or resale of energy and/or capacity at wholesale, or negotiation of contracts with retail customers.

KCCP asks that the identified data be held in confidence until June 1, 2021. This requested period of time is appropriate as the data is expected to retain validity and market value over that period, and because any lesser period would undermine existing

protection of the same or substantially similar data by other regulators or market entities, including the California Public Utilities Commission (“CPUC”), the California Air Resources Board and the California Independent System Operator (“CAISO”). KCCP has also fashioned this request to reflect the scope of protection provided to energy service provider (“ESP”) data in CPUC Rulemaking 05-06-040, and, in particular, Decision (“D.”) 06-06-066, Appendix B (“ESP Matrix”) and related modifications made in D.08-04-023, in an effort to have consistency across California energy agencies.<sup>1</sup> The public release of the specified information, particularly to competitors and potential customers, would result in a loss of competitive advantage for KCCP in the wholesale and retail markets, and may result in a loss in the ability to secure a favorable margin or return or result in disclosure of information about internal operating practices.

3. *Cite and discuss (i) the provisions of the Public Records Act or other law which allow the commission to keep the record confidential and (ii) the public interest in nondisclosure of the record.*

Under Public Resources Code Section 25322, the Commission is required to grant a request for confidential designation of information collected pursuant to Pub. Res. Codes Section 25301(a) if:

- (a) the information is exempt from disclosure under the California Public Records Act (Govt. Code §§ 6250 et seq.);
- (b) the information meets the confidentiality requirements set forth in the Commission’s regulations; or
- (c) on the facts of the particular case, the public interest served by not disclosing the information outweighs the public interest served by disclosure.

The Public Records Act exempts “trade secrets” from public disclosure, including “any formula, plan,...production data, or compilation of information..., which is known only to certain individuals within a commercial concern who are using it to fabricate, produce, or compound an article of trade or a service...and which gives its user an opportunity to obtain a business advantage over competitors who do not know or use it.” (Govt. Code § 6254.7(d).)

The Commission’s regulations provide for information to be designated as confidential if it “contains a trade secret or its disclosure would otherwise cause a loss of a competitive advantage.” (20 CCR § 2505(a)(1)(D).)

---

<sup>1</sup> While KCCP understands and acknowledges that the confidentiality rules granted by the California Public Utilities Commission and the California Energy Commission are different in some respects, KCCP seeks to maintain consistency in the data it makes publically available. Consistency also prevents KCCP from inadvertent disclosures of confidential information.

The information identified above contains trade secrets or otherwise commercially sensitive data the disclosure of which would cause loss of a competitive advantage. As an entity operating in the competitive and dynamic retail energy markets, as well as a net purchaser in the competitive wholesale markets, KCCP closely holds information on its retail and wholesale market positions in confidence. The materials identified above should be protected for the requested period because the information is commercially sensitive and not publicly available and/or constitutes trade secrets the public disclosure of which would harm KCCP. Moreover, this information can be used to directly or indirectly determine KCCP's market position to the detriment of KCCP and its customers. Accordingly, KCCP requests that all of the information described in section 1 above, and any related, supporting data that may be provided pursuant to a subsequent Staff request, be designated as confidential.

KCCP believes that the public interest in having an open, public debate on key energy issues facing the state can be satisfied by disclosure of information submitted by KCCP and the other ESPs collectively aggregated on a state-wide basis. Any greater granularity in the data released, including disclosure of any KCCP-specific data that is not aggregated with other ESPs, could expose KCCP's market position to its competitors, including other ESPs and the investor-owned utilities ("IOUs").

KCCP requests that the identified information also be deemed confidential for the following additional reasons: The information is commercially sensitive and constitutes a trade secret and is therefore exempt from disclosure. Evidence Code §1060, Civil Code §3426.1(d). Moreover, the public interest in nondisclosure clearly outweighs the public interest in disclosure insofar as release of this economic information may directly harm KCCP's existing and future commercial opportunities and its ability to secure a return in the marketplace, and disclosure may also harm KCCP's electric customers by foreclosing favorable commercial opportunities. Govt. Code § 6255.

4. *State whether the information may be disclosed if it is aggregated with other information or masked to conceal certain portions, and if so the degree of aggregation or masking required.*

KCCP has considered whether it would be possible to aggregate or mask the identified information. KCCP can support the aggregation of KCCP-specific information with similar information from all other ESPs and solely disclosed on a *statewide aggregated basis*. KCCP believes that disclosure of KCCP-specific data of the types collected here, even if aggregated on a statewide basis but specific to KCCP, could lead to the disclosure of KCCP's wholesale and retail market positions and thereby result in harm to KCCP. Given the degree of competition between ESPs, and between ESPs and the IOUs, KCCP asserts that any ESP-specific listing of data by utility territory would result in disclosure of confidential data.

5. *State whether and how the information is kept confidential by the applicant and whether it has ever been disclosed to a person other than an employee of the applicant, and if so under what circumstances.*

KCCP has not disclosed any of the subject information to anyone other than their employees, working with the Company, or government agency employees or employees of the CAISO subject to confidentiality protection. KCCP routinely keeps information of commercial value, like the subject information identified herein, confidential.

*I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge. I also certify that I am authorized to make the application and certification on behalf of King City Community Power.*
