Offshore Wind Project Big Sur

I have lived in Big Sur for over 50 years... Have a home at 2,000' and am very concerned about the visual pollution that these wind miles will create? I personally don't want them in our view shed or to see the lights from them at night? is solar not a better option? just a thought? PS.. I am and have been "Off Grid" and using solar for over 30 years...

Thanks for your time
