Great Oaks South is in Residential Area

To whom it may concern,

The Great Oaks South backup generation project should not proceed as planned. The build-site is on a residential street. Residences would be sharing the street with this Small Power Plant. Even considering the usage of this will be for back-up power, there will still be tests, and plans to use in that scenario. The emissions and noise should not be allowed in this area. There are neighborhoods with families that live, play, sleep and eat

Please reconsider this area and do not place a Small Power Plant on this site.

Thanks,
Jeff and Lluvia Shelton
