Commissioner Janea Scott  
Commissioner Karen Douglas  
Commissioner Andrew McAllister

Re. Docket number: 17-EVI-01

Honorable Commissioners,

I have been a contractor in the clean energy market in California for over twenty years. I recently began a new development and contracting company focused specifically on electrical vehicle charging stations.

I am writing to express my support for the Electric Vehicle Infrastructure Training Program.

Meaningful standards and qualifications for the installation of charging stations will result in more successful projects. The worst thing that could happen to this market would be for a catastrophic event to affect customer confidence and make asset underwriting more difficult.

By supporting qualified installers, you'll be ensuring that this market continues to grow only faster and faster for all of us.

Thank you for your consideration and service.

Sincerely,

A handwritten signature in black ink, appearing to read "Rafi Agoopian", with a horizontal line extending to the right.
