Engagement and Outreach Enhancing Charging Infrastructure

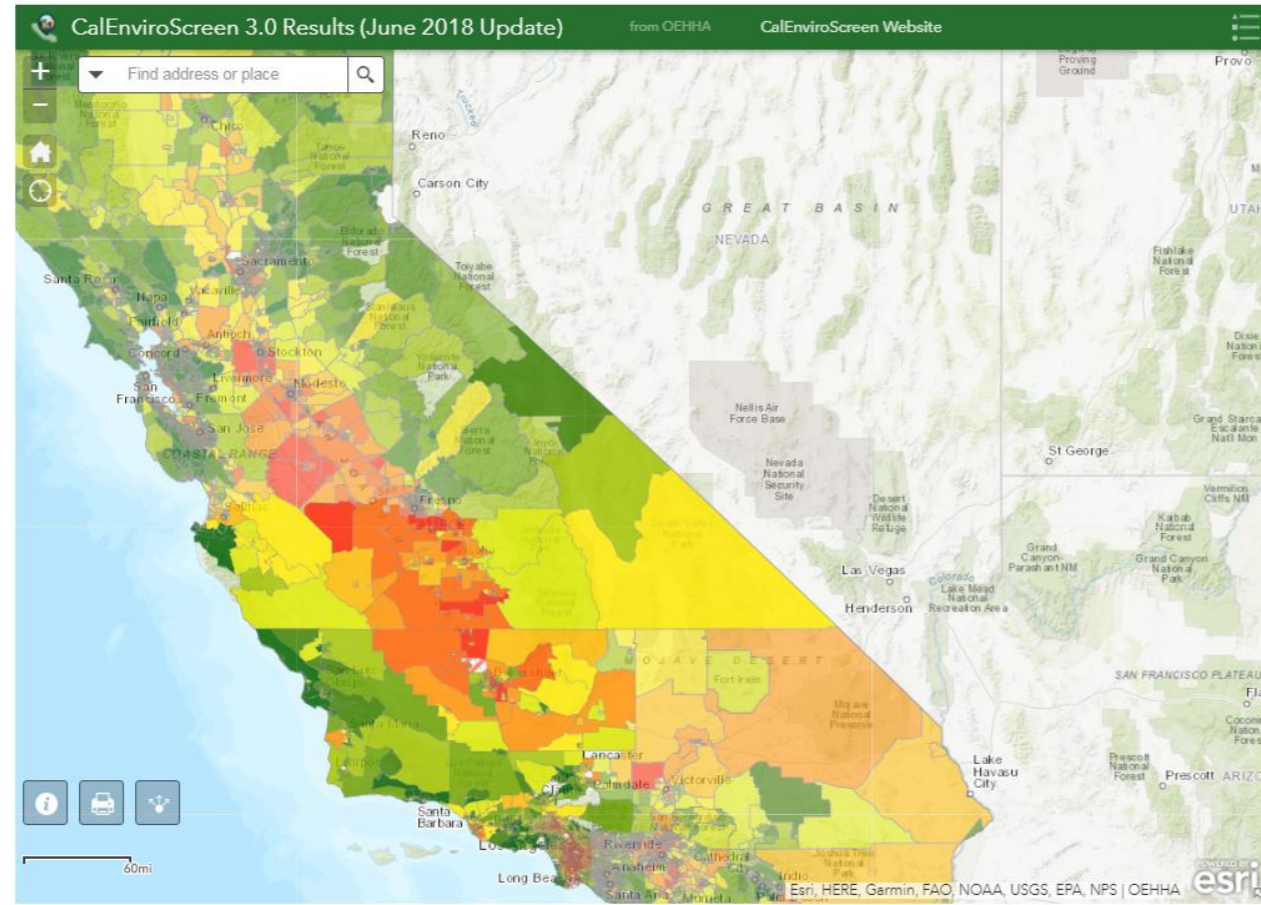

August 4th, 2020

Jin Zhu, Manager – CVRP Equity

Center for
Sustainable
Energy™

Disadvantage Community Outreach

Community Based Organizations

- Community Partners reside in the communities they serve
- Essential and trusted resources and advisors among the community members
- Trusted partners with the voice to reach community residents with information to reduce barriers of EV adoption and increase program participation

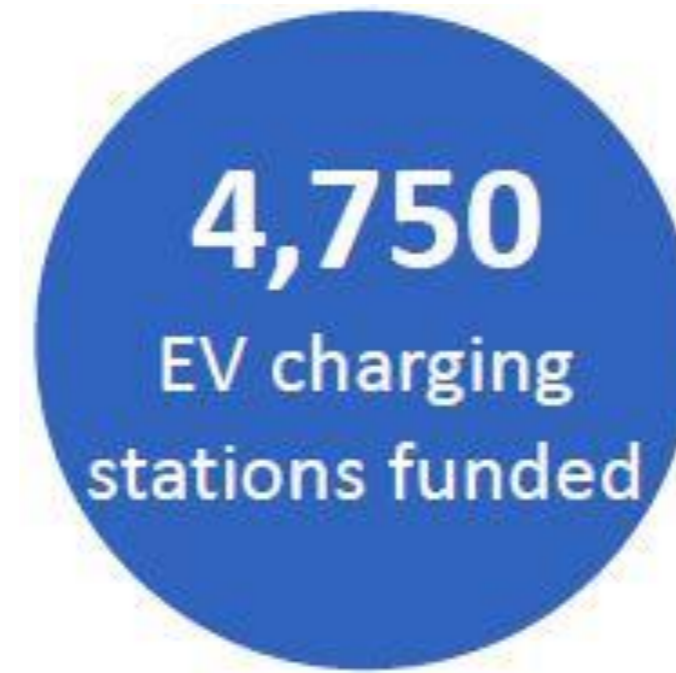

CVRP Community Partners Network

CALeVIP

- EVI needs/challenges for DAC residents and communities are unique and diverse per region

- CALeVIP provided incentives for Level 2 (L2) and DC fast charging (DCFC) electric vehicle charger installations

- CALeVIP has deployed 7 incentive projects in 17 counties across California

Thank You!
