I want to reach 100 percent clean energy by 2030!

The fires, the extreme weather, the natural disasters â€” too many lives are at risk for us to act any later than now. Please pass policy that will 1) electrify buildings and transportation and 2) make the source of renewable energy clean.

Please do not stand idly in the face of a deteriorating planet.

I attach a photo of the strikes to remind you of the concern everyone has toward the future of this planet. The future of OUR planet.
