## **I Need Access to Propane**

I have a home in a rural part of Napa County where natural gas is not available. Electricity is very costly for heating my home and is not reliable in my area. I need propane to keep my home heated for health and safety. Further, my electricity goes out roughly once or twice a month for periods of time. It is simply not reliable for heating my home. The elimination of propane use for my home would put me and my family at risk. Please consider these factors when enacting your propane policies.
