Why we need propane

Our neighborhood was just evacuated from the Glass Fire. Thanks be to God our neighborhood that got destroyed by the Tubbs Fire in 2017 didn't get hit again. Many neighbors fired up their generators to have valuables in their refrigerators saved. Without propane to keep generators going during crisis like these is unacceptable. When people are evacuated from their homes and then allowed to return back without electricity how are we supposed to survive?
Keep propane as an option please
Thank you
