Increase in noise and pollution equals decrease in property value

It has come to my attention that a giant project near my home is about to begin which will have a negative impact on the quality of air, the level of noise, and the value of my home. This project is too big for this quiet neighborhood. It is my understanding that this project was never presented to the City Council for approval. In addition there has been no public notice presented to the surrounding neighborhoods as mandated by City of San Jose Planning and Development Dept. guidelines.

I demand that all activities involving this project be stopped. I do not want this massive industrial complex in my neighborhood!!
