NOTICE OF REMOTE-ACCESS  
WORKSHOP

RE: SB 100 Joint Agency Report

**Notice of Senate Bill 100 Draft Report Workshop**  
**December 4, 2020**  
9:30 a.m.  
**Remote Access Only**

The California Energy Commission (CEC) will host a remote-access workshop jointly with the California Public Utilities Commission (CPUC) and California Air Resources Board (CARB) to discuss the draft report for the Senate Bill (SB) 100 (De León, Chapter 312, Statutes of 2018) Joint Agency Report. A quorum of commissioners may participate, but no votes will be taken.

The workshop will be held remotely, consistent with Executive Orders N-25-20 and N-29-20 and the recommendations from the California Department of Public Health to encourage physical distancing to slow the spread of COVID-19. The public can participate in the workshop consistent with the direction in these Executive Orders. Instructions for remote participation via Zoom are below.

### **Agenda**

Staff will present an overview of the draft report that summarizes modeling results, key takeaways from the assessment, next steps for analytical work, and recommended actions. Following the staff presentation, leadership from the California Natural Resources Agency, California balancing authorities, and the three host agencies will provide remarks. The agenda will conclude with a public comment period and closing remarks from the host agencies.

A detailed meeting agenda will be posted prior to the workshop at the SB 100 Joint Agency Report [webpage](https://www.energy.ca.gov/sb100), <https://www.energy.ca.gov/sb100>.

### **Background**

SB 100 establishes a state policy that eligible renewable energy resources and zero-carbon resources supply 100 percent of all retail sales to California end-use customers by December 31, 2045. SB 100 also requires the CEC, CPUC, and CARB to complete and submit a joint agency

report to the Legislature evaluating the 100 percent renewable energy and zero-carbon electricity policy. The SB 100 report will be informed by a public process and qualitative and quantitative analyses to address the requirements and intent of the statute. The requirement is codified in Public Utilities Code § 454.53, and the [full text](https://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=PUC&sectionNum=454.53) is available at [https://leginfo.legislature.ca.gov/faces/codes\\_displaySection.xhtml?lawCode=PUC&sectionNum=454.53](https://leginfo.legislature.ca.gov/faces/codes_displaySection.xhtml?lawCode=PUC&sectionNum=454.53).
