RESOLUTION NO. CC-20-88

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SHASTA LAKE
ADOPTING A FINDING THAT COMMERCIALY AVAILABLE ENERGY STORAGE SYSTEMS ARE
NOT CURRENTLY VIABLE AND COST EFFECTIVE FOR THE CITY AND THEREFORE IS NOT
ADOPTING PROCUREMENT TARGETS**

WHEREAS, California law encourages electric utilities to implement appropriate levels of energy storage that may be cost-effectively implemented; and

WHEREAS, the City of Shasta Lake ("City") has not adopted procurement targets for energy storage systems due to the lack of commercially viable and cost-effective technology; and

WHEREAS, the City must submit a report to the California Energy Commission by January 1, 2021 demonstrating compliance with applicable laws; and

WHEREAS, in 2020, the City Electric Department, working in conjunction with other publicly owned electric utilities, obtained a cost-benefit analysis, prepared by the Smart Electric Power Alliance (SEPA), to analyze the current state of costs and benefits of energy storage equipment; and

WHEREAS, the SEPA analysis suggests there are no commercially viable energy storage systems that are cost effective under current and foreseeable future.

NOW, THEREFORE, BE IT RESOLVED that the City of Shasta Lake City Council finds that commercially available energy storage systems are not currently viable and cost effective and that the City does not adopt procurement targets for energy storage systems at this time.

PASSED, APPROVED, AND ADOPTED this 15th day of December, 2020 by the following vote:
