Docket Number:	20-PSDP-01
Project Title:	Power Source Disclosure Program - 2019
TN #:	236123
Document Title:	Response Letter to Calpine Energy Solutions Application for Confidential Designation
Description:	N/A
Filer:	Ngoc Tran
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	12/23/2020 2:59:58 PM
Docketed Date:	12/23/2020

December 23, 2020

Mr. Greg Bass
Regulatory Director
Calpine Energy Solutions, LLC
401 West A Street, Suite 500
San Diego, CA 92101

**Application for Confidential Designation for Power Source Disclosure
Annual Report, Docket No. 20-PSDP-01**

Dear Mr. Bass:

The California Energy Commission (CEC) is in receipt of Calpine Energy Solutions, LLC's (applicant) Application for Confidentiality for specified data contained in the 2019 Annual Reports under the Power Source Disclosure program (PSDP). Specifically, the applicant seeks confidentiality for the following data:

- 1) PSD Schedule 1 – Unspecified Power Purchase data in cell L9 and Total Retail Sales information in cell L7; and
- 2) PSD Schedule 3 – Total and Renewable Specific Purchases: Percent of Total Retail Sales in cells C13:C18. C24:C25; Unspecified Power in cell B24 and Total Retail Sales in cells B25 and C27.

The application notes that the data contains trade secrets or otherwise commercially sensitive data, the disclosure of which would cause loss of a competitive advantage. As an entity operating in the competitive and dynamic retail energy markets, as well as a net purchaser in the competitive wholesale markets, the applicant states that it holds information on its retail and wholesale market positions in confidence. The applicant states information can be used to directly or indirectly determine market position to the detriment of the applicant and its customers.

The application states that confidential information contained in the annual reports may be disclosed if it is aggregated with the same type of data reported by other energy service providers.

A properly filed Application for Confidentiality shall be granted under the California Code of Regulations, Title 20, section 2505(a)(3)(A), “. . . if the applicant makes a reasonable claim that the Public Records Act or other provision of law authorizes the Commission to keep the record confidential.” The California Public Records Act allows for the non-disclosure of trade secrets. (Gov. Code, section 6254(k); Evid. Code, section 1060.)

California courts have traditionally used the following definition of trade secret:

A trade secret may consist of any formula, pattern, device or compilation of information which is used in one's business, and which gives him an opportunity to obtain an advantage over competitors who do not know or use it. . . .

(*Uribe v. Howe* (1971) 19 Cal.App.3d 194, 207, citing the Restatement of Torts, vol. 4, section 757, comment b, p.5.)

California Code of Regulations, Title 20, section 2505(a)(1)(D), states that if an applicant for confidential designation believes that the record should not be disclosed because it contains trade secrets, or its disclosure would otherwise cause loss of a competitive advantage, an application shall state: 1) the specific nature of the advantage; 2) how the advantage would be lost; 3) the value of the information to an applicant; and 4) the ease or difficulty with which the information could be legitimately acquired or duplicated by others.

The application addresses these elements as disclosure of the applicant's retail sales or procurement data could disadvantage the applicant in negotiating for upcoming purchases of renewable energy. According to the application, this disadvantage could result in higher costs for customers and the potential loss of customers. Procurement data has been kept confidential and has not been publicly disclosed.

The applicant has made a reasonable claim that the law allows the California Energy Commission to keep the identified data contained in the annual reports from public disclosure except for total annual retails sales in megawatt hours.

Load serving entities like applicant, already provide quarterly annual retail sales under Title 20, section 1306(b). As set forth in Title 20, section 2507(e)(1)(A)(1), the quarterly data can be publicly disclosed for an individual load serving entity if aggregated at the statewide level by year. Therefore, data submitted consistent with this level of aggregation will not be confidential.

Mr. Greg Bass
December 23, 2020
Page 3

The applicant requests that the information be kept confidential until December 31, 2021. A confidentiality term this long is inconsistent with terms requested by and granted to other entities under the PSDP, which is until December 31, 2020. A term ending December 31, 2020, or one year from the end of the reporting period, represents the amount of time the same or substantially similar data is considered confidential by the California Public Utilities Commission under R05-06-040 Appendix B ESP Matrix section V and D06-06-066 Appendix 2 ESP Matrix, *Market Purchases of Energy and Capacity: public after one year*.

For these reasons, the request for confidential designation for the identified data contained in the annual reports is granted until December 31, 2020. The information may be released before this date if applicant-specific information is aggregated with information from all other Energy Service Providers on a statewide level.

For future PSDP annual reports that are substantially similar, the applicant may follow the simplified process set forth in the California Code of Regulations, Title 20, section 2505(a)(4).

Be advised that persons may petition to inspect or copy records that have been designated as confidential, the executive director may disclose or release records previously designated as confidential in certain circumstances, and the CEC may hold a hearing to determine the confidentiality of its records on its own motion or on a motion by CEC staff. The procedures and criteria for disclosing or releasing, filing, reviewing, and acting upon such petitions or motions are set forth in the California Code of Regulations, Title 20, sections 2506-2508.

If you have any questions concerning this matter, please contact Jared Babula, senior attorney, at jared.babula@energy.ca.gov or (916) 651-1462.

Sincerely,

Drew Bohan
Executive Director
