 Modification of Regulations Specifying Enforcement Procedures for the Renewables Portfolio Standard for Local
 Project Title: Publicly Owned Electric Utilities

Project Applicant: California Energy Commission

Project Location (include county): Statewide

Project Description:

The California Energy Commission proposes to modify existing regulations specifying procedures for the enforcement of the Renewables Portfolio Standard (RPS) for local publicly owned electric utilities (POUs) under Article 16 (commencing with section 399.11) of Chapter 2.3 of Part 1 of the Public Utilities Code. The proposed regulations will implement, interpret, make specific several provisions under Senate Bill (SB) 350 (Stats. 2015, ch. 547, sec. 24), SB 1393 (Stats. 2016, ch. 677), SB 100 (Stats. 2018, ch. 312, sec. 4), SB 1110 (Stats. 2018, ch. 605), and clarify existing regulatory provisions and reporting requirements. This rulemaking will update the RPS program for POUs to implement changes to RPS procurement requirements, optional compliance measures, reporting requirements, and special exemptions and exclusions. The rulemaking also updates other aspects of the program to facilitate implementation and improve clarity.

This is to advise that the California Energy Commission has approved the above
 Lead Agency or Responsible Agency)

described project on 12/22/2020 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
