DOCKET NO: 20-SPPE-1

SV1 STATUS REPORT NUMBER 3

SV1, in accordance with the Notice of Committee Conference and Related Orders (TN 234539), dated, August 31, 2020 (“Committee Orders”), hereby files this Status Report Number 2. SV1 continues to work to revise its project description, evaluate effects on noise and air quality/public health of its decision to install Tier 4 compliant engines for the Great Oaks South Backup Generating Facility (GOSBGF). SV1 anticipates submittal of these items on or before March 10, 2021.

SV1 received a draft VMT analysis and docketed on February 1, 2021 (236541). Other than the revised project description and analysis relevant to Tier 4 compliant engines, SV1 believes that it has submitted all outstanding items and urges Staff to complete the sections of its Draft Environmental Impact Report (EIR) that are unaffected by the change to Tier 4 compliant engines.

Dated: February 10, 2021

Respectfully Submitted,
