Support all-electric for 2022 code

Dear Commissioners:

I've lived in California for almost all my 71 years, and have cared deeply about the environmental legacy we are leaving to future generations.

Thank you for taking one step to ensure that fossil fuels are reduced in new buildings. However, there is much more to be done. Specifically, I would like to see your 2022 Title 24 building code mandates all electric appliances, rather than just one. Please note that the climate crisis is dire and we need to rapidly take dramatic action.

Thanks for listening and for being bold leaders.

Kind regards,
Olga Mandrussow
