## **Docket 19-ERDD-01 Randomized Trial Study to Determine the Impact of Gas Stove Interventions on Children with Asthma**

1. How will CEC determine sample sizes?
  - a. Which previous studies have indicated the need for large sample sizes?
  
2. How will CEC determine which households to target?
  - a. Households with children vs. not?
  - b. Households based on dwelling time, vintage and equipment type vs. single/multi-family (based on exposure)?
  
3. What are the ages of the children ( affects may vary between young vs. older children- and long term effects will not be seen until a certain time goes by)?
  
4. How long is the study duration and how will CEC follow up?
