Agenda Item # 14 for CEC Meeting

The climate crisis is on us and wildfires are getting worse. California, and the rest of the world need to transition out of fossil fuels. Hence it is important that the CEC, in its revision of the proposed 2022 Building ensure wither that all new buildings and homes are all-electric, with no natural gas use, or are at least wired so as to be capable of the all-electric mode in all appliances and heating and cooling items in these buildings
