Subject: **MAKING REQUESTS FOR COMMITTEE ACTION**

On October 16, 2020, the California Energy Commission (CEC) Committee¹ filed its [Committee Scheduling Order](#). The Scheduling Order included the requirement that the parties file monthly status reports.

In [SVP Status Report 1 - GOSBGF](#), Applicant requested that “the Committee affirm that emergency modeling of emissions would be unnecessary.”

We direct the parties’ attention to the General Orders Regarding, Motions, Electronic Filing, Service of Documents, and Other Matters ([General Orders](#)). The General Orders state that written motions shall state the motion in the document’s title and provide the basis for the requested relief. The other parties then have the opportunity to respond to any motions filed.

Applicant’s request that the Committee affirm whether a particular analysis is required was not included in the title of the document. The failure to do so may deprive other parties of the ability to respond or object to the request.

Accordingly, the Committee will not take any action on this request regarding the necessity for analysis of emergency operations change without adherence to the General Orders. While requests do not require a separate filing from a status report, the request must be included in the title of the document in order for it to be considered on the merits by the Committee.

If you have any questions of a procedural nature, please contact me as shown above.

¹ On May 13, 2020, the CEC appointed a Committee consisting of Karen Douglas, Commissioner and Presiding Member, and David Hochschild, Chair and Associate Member, to preside over this SPPE Application. (TN 233123.)
