SUPPLEMENTAL REBUTTAL TESTIMONY**

I. Name: Marcela DeLong
Steven Branoff

II. Purpose:
Our Supplemental Testimony addresses the revised generator technology from Tier 2 to Tier 4 compliant generators for the Sequoia Backup Generating Facility (SBGF) CEC Docket 19-SPPE-3 and as those changes relate to Project Description, Air Quality, Public Health, Hazards and Hazardous Materials, Land Use, and Transportation.

III. Qualifications:

Marcela DeLong: I am presently employed as Project Architect, Senior Associate with Corgan, the project architecture firm hired by CyrusOne, the owner of C1-Santa Clara, LLC (C1). I have been employed by Corgan for the past 8 years. I have a master's degree in Architecture from Ohio State University and I have 8 years of experience developing critical infrastructure projects such as data centers.

I am the Project Manager for the permitting of the SBGF and the Sequoia Data Center. I caused to be prepared and reviewed the Application For SPPE, as well as the post-filing information, data responses, and supplemental filings.

Steven Branoff: I am presently employed as a Principal at Ramboll and have been for the past 20 years. I have a Master of Science Degree in Environmental Engineering from the University of California at Berkeley and I have 25 years of experience in conducting air quality and public health analyses within California and other western states.

I have been engaged by C1-Santa Clara, LLC (C1) to prepare the Bay Area Air Quality Management District Authority to Construct applications and the air quality and public health analyses for development of the SBGF. I prepared or caused to be prepared the Air Quality section of the

Application For SPPE and Air Quality Technical Reports, as well as the post-filing information, data responses, and supplemental filings.

Detailed descriptions of our qualifications are presented in our resumes which were included in Attachment A to C1's Opening Testimony package (TN 232420).

To the best of our knowledge all referenced documents and all of the facts contained in this testimony are true and correct. To the extent this testimony contains opinions, such opinions are our own. We make these statements and provide these opinions freely and under oath for the purpose of constituting sworn testimony in this proceeding.

IV. Exhibits

In addition to this written testimony, we will be sponsoring the exhibits listed on C1's Proposed Additional Exhibit List which will be docketed on or before May 7, 2021.

V. Opinion and Conclusions

We have reviewed Staff's revisions to the Initial Study/Mitigated Negative Declaration docketed on February 26, 2021 (TN 236919) and its additional revisions to the Compiled Revised Initial Study/Mitigated Negative Declaration (Staff IS/MND) docketed on April 23, 2021 (TN 237528) and agree with the changes and analysis proposed therein. We also agree with the Staff findings and conclusions that the modification to Tier 4 generators does not change any of the findings, conclusions, Proposed Design Measures, or mitigation measures originally approved in the Proposed Decision.
