NOTICE OF REMOTE-ACCESS WORKSHOP

RE: Building Decarbonization Assessment

**Notice of Commissioner Workshop:
Draft Building Decarbonization Assessment
May 21, 2021
11:00 a.m.****Remote Access Only**

The California Energy Commission (CEC) will host a workshop to present the draft Building Decarbonization Assessment required by Assembly Bill 3232 (Friedman, Chapter 373, Statutes of 2018) (AB 3232). A quorum of commissioners may participate, but no votes will be taken.

The workshop will be held remotely, consistent with Executive Orders N-25-20 and N-29-20 and the recommendations from the California Department of Public Health to encourage physical distancing to slow the spread of COVID-19. The public can participate in the workshop consistent with the direction in these executive orders. There will be opportunities for public comment. Instructions for remote participation via Zoom or telephone are below.

Agenda

Staff will present an overview of the draft Building Decarbonization Assessment and the building decarbonization scenarios developed to assess the feasibility and costs of various building decarbonization strategies. Time will be allotted for public comments. Written comments with supporting documents or data are encouraged (see below for submittal instructions).

A detailed meeting schedule and the draft assessment will be posted on the [Building Decarbonization Assessment](https://www.energy.ca.gov/data-reports/reports/building-decarbonization-assessment) webpage, available at <https://www.energy.ca.gov/data-reports/reports/building-decarbonization-assessment> prior to the workshop.

Background

AB 3232 requires the CEC to assess the technical feasibility of reducing greenhouse gas emissions from residential and commercial buildings 40 percent below 1990 levels by 2030, in consultation with the California Public Utilities Commission (CPUC), California Air Resources Board (CARB), and the California Independent System Operator. On December 4, 2019, the CEC held the "Building Decarbonization Assessment – Project Scope" public workshop. On February 27, 2020, staff

presented the Fuel Substitution Scenario Analysis Tool (FSSAT) that has been instrumental to conducting the assessment. On May 22, 2020, staff held the “Building Decarbonization: Opportunities and Challenges of the Commercial and Residential Building Sectors” public workshop. Presentations and materials from all workshops and associated stakeholder comments are accessible on the [19-DECARB-01 Docket Log](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=19-DECARB-01) (<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=19-DECARB-01>).
