## **Morro Bay Wind Port**

I am a resident of Morro Bay and have significant concerns about locating the wind turbines and wind port in Morro Bay, a small beach community that already has a dearth of housing and services. What is the impact to Morro Bay residents in terms of quality of life, property value, access to affordable housing and services? The pristine beach is the most valuable asset, how will this be impacted? Where will the wind port be located? Will it disrupt established businesses?
