NOTICE OF REMOTE-ACCESS
WORKSHOP

RE: Senate Bill 1000 Electric Vehicle
Charging Infrastructure Deployment
Assessment

Senate Bill 1000 Staff Workshop

July 8, 2021

10:00 a.m.

Remote Access Only

The California Energy Commission (CEC) will host a remote-access workshop to solicit feedback on analysis of public light-duty electric vehicle charging infrastructure access by disadvantaged communities, low-income communities, and rural communities. The workshop will also seek feedback on additional components of the Senate Bill (SB) 1000 (Lara, 2018) assessment which include whether charging station infrastructure is (a) disproportionately deployed by population density, (b) geographical area, or (c) population income level, including low-, middle-, and high-income levels. This will help ensure that all Californians have access to infrastructure.

The workshop will be held remotely, consistent with Executive Orders N-25-20 and N-29-20 and the recommendations from the California Department of Public Health to encourage physical distancing to slow the spread of COVID-19. The public is able to participate in the workshop consistent with the direction in these executive orders. There will be opportunities for public comment. Instructions for remote participation via Zoom are below.

Agenda

1. Background on Senate Bill 1000 and the Clean Transportation Program
2. Overview of Research Objectives and 2020 Results

3. Methodology for 2021
4. Preliminary 2021 Results
5. Public Comment, Questions and Discussion

Background

SB 1000 directs the CEC to assess distribution and access of light-duty electric vehicle charging infrastructure to help inform Clean Transportation Program investments and equitable deployment of infrastructure. Staff published an inaugural report in December 2020 showing the distribution of public chargers by income level, population density, and geographical area. At this workshop, staff will present new spatially localized analysis on neighborhood-level public charging access with a focus on access by disadvantaged communities, low-income communities, and rural communities.
