## **Approving all electric in 2022 code**

California needs to move quickly to all electric as the state identifies ways to reduce the catastrophic effects of climate change. We donâ€™t have the luxury of waiting. By requiring new buildings to be all electric in the 2022 code cycle, we will be reducing tons of carbon and avoiding costly future re-modeling. Be bold and take the step to move to all electric in the 2022 code cycle.
