Re: *Transmittal Email and Confidentiality Certification for
SCE Electricity and Natural Gas Demand Forecast
Submissions in 21-IEPR-30*

Dear Executive Director Bohan:

On June 30, 2021 Southern California Edison Company (SCE) submitted its Demand Forecast forms in the 2021 Integrated Energy Policy Report (IEPR) proceeding, 21-IEPR-30. At that time, SCE submitted only a confidential version of Form 1.6(b) because we were still in the process of determining if there were any substations for which confidential customer information would be revealed if not redacted or aggregated in the public version of the form.

We have determined that certain substations should be aggregated for the public version of the form. We are therefore submitting (1) a public version that aggregates some information to protect confidential customer information; and (2) a second confidential version that is disaggregated but highlights in yellow the information that was aggregated in the public version of Form 1.6(b). The confidential customer information in both the confidential versions is entitled to automatic confidential designation under 20 C.C.R. § 2505. Thus, pursuant to 20 C.C.R. 2505(a)(1)(G) and (a)(4), SCE is not submitting a new application for confidential designation.

I certify under penalty of perjury that the information provided in the forms is, to the best of my knowledge, true, correct, and complete.

If you have any questions, please feel free to contact me by email at Hongyan.Sheng@sce.com.

Best regards,

/s/ *Hongyan Sheng*
