## City of Alameda • California

June 14, 2021

Mr. Drew Bohan  
Executive Director  
California Energy Commission  
1516 Ninth Street  
Sacramento, CA 95814-5514

RE: City of Alameda Building Energy Efficiency Standards

Dear Mr. Bohan,

Per the request of Commission Staff, the City of Alameda would like to express to you our firm commitment to enforce the 2019 Title 24, Part 6 Building Energy Efficiency Standards of the California Building Code as part of the implementation of our Green Building Requirements. As the Building Official, I will work with City staff to provide training on enforcement of the energy standards, including the new requirements, to ensure compliance with the Building Efficiency Standards. This includes providing guidance and information to staff and the public on updated energy standards and local codes.

The all-electric reach code was heard by the Alameda City Council on May 18, 2021 and was adopted at its second hearing on June 1, 2021.

Additionally, the Council found that, under the California Environmental Quality Act pursuant to Section 15061(b)(3) and 15308 of the CEQA Guidelines, there is no possibility that the implementation of the ordinance will have a significant negative impact on the environment and is thus exempt from the requirements of CEQA.

The City of Alameda Building Efficiency Standards will ensure that residential and non-residential buildings in the County will consume no more energy than permitted by Title 24, Part 6.

Sincerely,

A handwritten signature in black ink, appearing to read "Gregory J. McEann". The signature is stylized and written in a cursive-like font.

Gregory J. McEann,  
Building Official  
City of Alameda
