| Carson Ice-Gen Project |) | CVFA'S NOTICE OF |
| (Small Power Plant Exemption) |) | CHANGE IN OWNERSHIP |
| |) | FOR THE CARSON ICE-GEN |
| |) | PROJECT AND ADMINISTRATIVE |
| _____ |) | NAME CHANGE |

The Central Valley Financing Authority (CVFA) hereby submits this Notice of Change in Ownership ("Petition") for the Carson Ice-Gen Project ("Project"). By this document, CVFA notices the transfer of ownership of the Project's generating facility to the Sacramento Municipal Utility District Financing Authority (SFA), a joint powers authority (JPA) under California law. SFA will operate and maintain the Project's generating facility in a similar manner to the operation of the Cosumnes Power Plant. SFA personnel staff the Project and hires a professional operator to operate and maintain the generating facility, while the Sacramento Municipal Utility District ("SMUD") remains the owner and operator of the Project's electric transmission lines, water pipeline and gas pipeline system.

The change in ownership will simply mean that the operation and maintenance of the Project will be handled in the same manner as SFA's Cosumnes Power Plant licensed by the CEC; where EthosEnergy Power Plant Services, LLC, will continue to provide operations and maintenances services. SMUD will remain responsible for procuring water, electric transmission, and natural gas for the project, as well as for dispatching and purchasing all of the capacity and energy from the Project.

Finally, the name of the Project, the "Carson Ice-Gen Project," will change to "Carson Power Plant." This is consistent with the naming convention for other power plants owned by SFA. This name change is necessary to improve the alignment of SFA and is administrative in nature.
