RE: Staff Workshop on Funding
Allocations for Future Electric
Vehicle Charging Projects

Notice of Workshop on Funding Allocations for Future Electric Vehicle Charging Projects

December 2, 2021

1:00 p.m. - 4:00 p.m.

Remote Access Only

The California Energy Commission (CEC) will host a remote-access workshop to gather stakeholder feedback on potential light-duty electric vehicle (EV) charging infrastructure projects. During the workshop, CEC staff will present proposals for future funding projects. A quorum of commissioners may participate, but no votes will be taken.

The workshop will be held remotely, consistent with Assembly Bill 361 (Rivas, Chapter 165, Statutes of 2021) to improve and enhance public access to state agency meetings during the COVID-19 pandemic by allowing broader access through teleconferencing options. The public can participate in the meeting consistent with the direction provided below. Please note that the CEC aims to begin promptly at the start time posted and the end time is an estimate based on the agenda proposed. The workshop may end sooner or later than the posted end time depending on various factors.

Agenda

The workshop will include staff presentations on potential future funding concepts.

A detailed meeting agenda will be posted prior to the workshop on the [events page of the CEC website](https://www.energy.ca.gov/events), <https://www.energy.ca.gov/events>.

Background

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007), created the Clean Transportation Program. The statute authorizes the CEC to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state’s climate change and clean air goals. AB 8 (Perea, Chapter 401, Statutes of 2013) reauthorized the funding program through January 1, 2024.

The 2021 – 2022 Clean Transportation Program Investment Plan allocates approximately \$270 million for light-duty EV charging infrastructure from the Clean Transportation Program and a one-time investment from the State General Fund. This workshop will seek to gather stakeholder feedback on possible EV infrastructure projects which could be funded from the light-duty vehicle allocation.
