## Updated Agenda

December 2, 2021

### Integrated Energy Policy Report Commissioner Workshop on the Electricity and Natural Gas Demand Forecast for 2021–2035

The agenda for this workshop is being updated as shown below. Additions to the notice that was docketed on November 16, 2021, are shown in underlined text and topics removed from the agenda are struck out (example: underline and ~~strikeout~~).

#### Agenda

CEC staff will present the results of the electricity and gas demand forecasts for 2021–2035.

In Session 1, staff will present forecasts of:

- Additional achievable energy efficiency and fuel substitution (for example building electrification).
- ~~Behind-the-meter distributed generation and storage impacts.~~

In Session 2, staff will present the forecasts of transportation electrification and will discuss the new long-term demand scenarios project. ~~annual end-user electricity and gas demand.~~

A detailed [meeting schedule](#) will be posted before the workshop at [the 2021 IEPR Workshops, Notices and Documents](#) webpage found at <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2021-integratedenergy-policy-report/2021-iepr>.

List Servers: energypolicy, efficiency, distgen, electricity, naturalgas, transportation
