Docket Number:	21-IEPR-04
Project Title:	Energy Reliability
TN #:	240836
Document Title:	Chetna Smith response to CPUC Commissioner Shiroma re- DR performance
Description:	*** THIS DOCUMENT SUPERSEDES TN 240789 *** - Chetna Smith response to CPUC Commissioner Shiroma re- DR performance on Dec 3rd IEPR Commissioner Workshop on Supply-Side Demand Response
Filer:	Raquel Kravitz
Organization:	SCE
Submitter Role:	Public
Submission Date:	12/6/2021 1:04:37 PM
Docketed Date:	12/6/2021

“As a follow up to Commissioner Shiroma’s question on where SCE’s addressed DR performance as a result of 2020 events and the CAISO root cause analysis report, please see SCE’s Jan 11, 2021 Direct Testimony on page 39 under “DR Performance Improvements” <https://docs.cpuc.ca.gov/PublishedDocs/SupDoc/R2011003/3308/359864615.pdf>”

To confirm (there are internal discussions on ex parte requirements so I want to clarify for my leadership), that this response is not just going directly to Commissioner Shiroma but to the entire attendee list. My revision will also help with that as well since it’s more generic and I am not directly talking to her.

Thank you!

Chetna (Nanjappa) Smith (she/her)
