CEC-70 (Revised 12/2020)

**IN THE MATTER OF:**

*2021 Integrated Energy Policy Report  
(2021 IEPR)*

Docket No. 21-IEPR-01

NOTICE OF AVAILABILITY

RE: *Draft 2021 Integrated Energy  
Policy Report*

## **Notice of Availability and Request for Comments on the *Draft 2021 Integrated Energy Policy Report (IEPR)***

The lead California Energy Commission (CEC) commissioner for the *2021 Integrated Energy Policy Report (2021 IEPR)*, J. Andrew McAllister, seeks public comments on the *Draft 2021 Integrated Energy Policy Report (Draft 2021 IEPR)*. The *Draft 2021 IEPR* is available on the CEC's 2021 IEPR [web page](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2021-integrated-energy-policy-report) at <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2021-integrated-energy-policy-report>. This notice is for three out of the four volumes and the appendix that make up the *Draft 2021 IEPR* — a fourth volume will be available for comment at a later date.

### **Background**

Public Resources Code Section 25301 requires the CEC to prepare an IEPR every two years that includes assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices. The CEC uses these assessments and forecasts to develop and evaluate energy policies and programs that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety.

Public Resources Code Section 25302(e) directs state government entities to use the information and analyses contained in the adopted IEPR to carry out their energy-related duties and responsibilities. The CEC has coordinated closely with other agencies to ensure consistency in the underlying information used to develop this report.

The IEPR lead commissioner issued a scoping order on March 16, 2021, identifying topics to cover in the report. As detailed in the scoping order, the *2021 IEPR* is composed of four volumes and an appendix:

- **Volume I** addresses actions needed to reduce the greenhouse gases (GHG) related to the buildings in which Californians live and work, with an emphasis on energy efficiency. It also addresses reducing GHGs from the industrial and agricultural sectors.

- **Volume II** examines actions needed to increase the reliability and resiliency of California’s energy system.
- **Volume III** looks at the evolving role of gas in California’s energy system, both the importance in near-term reliability and the need for the system to evolve as California works to achieve carbon neutrality — the point at which the removal of carbon pollution from the atmosphere equals or exceeds emissions — by 2045. *This volume is not yet available for comment.*
- **Volume IV** reports on California’s energy demand outlook, including a forecast to 2035 and long-term energy demand scenarios to 2050. The analysis includes the electricity, gas, and transportation sectors.
- **Appendix** evaluates the benefits of California’s clean transportation system.

The *2021 IEPR, Volume III* will be available for comment later and under separate notice.

The CEC held 20 workshops between February 2021 and December 3, 2021, (another workshop is scheduled on December 16, 2021) on the topics identified in the scoping order. Information from the workshops and public comments were key inputs in developing the *Draft 2021 IEPR*. All workshop documents including agendas, background material, transcripts, presentations, and public comments, are available on the CEC’s 2021 IEPR [web page](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2021-integrated-energy-policy-report/2021-iepr) at <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2021-integrated-energy-policy-report/2021-iepr>.

Under the direction of the lead commissioner, the CEC will carefully review comments received on the *Draft 2021 IEPR* and make changes as needed in response to comments. The report will also be updated to include forecast results (Volume IV) and to reflect market updates as needed. The final draft is expected to be available by early February 2022 to be considered for adoption at the CEC’s business meeting on February 16, 2022.

## Public Comment

Written comments must be submitted to the Docket Unit by 5:00 p.m. on December 21, 2021. Written and oral comments, attachments, and associated contact information (including address, phone number, and email address) will become part of the public record of this proceeding with access available via any internet search engine.

The CEC encourages use of its electronic commenting system. Visit the [e-commenting page](https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=21-IEPR-01) (<https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=21-IEPR-01>), which links to the comment page for this docket. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the “Comment Text” box or attached as a downloadable, searchable document in Microsoft® Word or Adobe® Acrobat®. The maximum file size allowed is 10 MB.

Written comments may be submitted by email. Include docket number 21-IEPR-01 and Draft 2021 IEPR in the subject line and email to [docket@energy.ca.gov](mailto:docket@energy.ca.gov).

If preferred, a paper copy may be sent to:

## **Public Advisor and Other CEC Contacts**

The CEC's Public Advisor assists the public with participating in CEC proceedings. To request interpreting services, reasonable modification or accommodations, contact the Public Advisor at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov) or by phone at (916) 957-7910. Requests should be made as soon as possible but at least five days in advance. The CEC will work diligently to meet all requests based on the availability of service or resource needed.

**Direct media inquiries** to [mediaoffice@energy.ca.gov](mailto:mediaoffice@energy.ca.gov) or (916) 654-4989.

**Direct technical subject inquiries** to Heather Raitt at [heather.raitt@energy.ca.gov](mailto:heather.raitt@energy.ca.gov) (916) 628-2355.

**Direct general inquiries** regarding the IEPR proceeding to Raquel Kravitz, IEPR Project Manager, at [raquel.kravitz@energy.ca.gov](mailto:raquel.kravitz@energy.ca.gov) or (916) 907 4284.

## **Availability of Documents**

The service list for the 2021 IEPR is electronic. Notices and documents for this proceeding are posted to the CEC [web page](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2021-integrated-energy-policy-report) at <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2021-integrated-energy-policy-report>.

When new information is posted, an email will be sent to those on the energypolicy list serve. Those interested in receiving these notices can subscribe in the lower right corner at the [Integrated Energy Policy Report](https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report) page, <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report>, or alternatively manage existing list serves or sign up for others at the [CEC List Servers](http://www.energy.ca.gov/listservers/index.html), <http://www.energy.ca.gov/listservers/index.html>.

Dated: Tuesday, December 7, 2021, at Sacramento, California

List Servers: energypolicy, diversity, dcag, barriers, climatechange, efficiency, existing\_buildings, decarbonization, electricity, natural gas
