Docket No. 21-RPS-02

NOTICE OF REMOTE-ACCESS
WORKSHOP

RE: Workshop on RPS Requirements
for Energy Storage Devices

**Notice of Staff Workshop
on RPS Requirements for Energy Storage Devices
February 8, 2022
1:00 p.m. – 3:00 p.m.
Remote Access Only**

The California Energy Commission (CEC) will host a remote-access workshop to discuss and solicit comments on the Renewables Portfolio Standard (RPS) treatment and requirements for energy storage devices associated with renewable resources participating in the RPS.

The workshop is being held remotely, consistent with Governor Newsom's Executive Order N-1-22 to improve public access to state agency meetings during the COVID-19 pandemic. The public can participate in the workshop consistent with the direction provided below. The CEC aims to begin promptly at the start time, and the end time is an estimate.

Agenda

Staff will present and seek comment on the following topics:

- Overview of energy storage devices associated with renewable resources participating in California's RPS.
- Current RPS participation requirements for renewable resources associated with an energy storage device.
- Facility configurations and clarification of how current RPS requirements apply.
- Requirements of other organizations and how they align with RPS requirements.

- Purchase agreements and delivery of energy from renewable resources associated with energy storage devices.
- Potential revisions to the existing language concerning energy storage devices in the *Renewables Portfolio Standard Eligibility Guidebook* (RPS Guidebook), *Ninth Edition* (Publication No. CEC-300-2016-006-ED9-CMF-REV.)

The workshop will include an opportunity for public comment.

A detailed meeting agenda will be posted prior to the workshop at [CEC Docket Log 21-RPS-02](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-RPS-02), <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-RPS-02>.

Background

The current RPS Guidebook includes language outlining the requirements for energy storage devices associated with eligible renewable energy resources. CEC staff is reviewing whether updates to this language are needed in order to properly reflect current technology and market conditions for energy storage devices associated with eligible renewable energy resources currently participating in or seeking participation in the RPS program. The [RPS Guidebook](https://efiling.energy.ca.gov/getdocument.aspx?tn=217317) is available for review at <https://efiling.energy.ca.gov/getdocument.aspx?tn=217317>.
