## **Agenda Staff Workshop**

### RPS Requirements for Energy Storage Devices

February 8, 2022  
1:00 PM to 3:00 PM PT

<https://energy.zoom.us/j/95887815712?pwd=NXIHZTZWQWo4UnduYIFRSIVqZjBSQT09>

Meeting ID: 958 8781 5712  
Meeting password: RPS-CEC

The California Energy Commission (CEC) will host a remote-access workshop to discuss and solicit comments on the Renewables Portfolio Standard (RPS) treatment and requirements for energy storage devices associated with renewable resources participating in RPS. The agenda will reflect a set of proposed questions that will be asked of stakeholders and public participants. Although there may not be sufficient time to discuss every question during the workshop, participants are encouraged to submit written comments on any of the questions below to <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=21-RPS-02> by February 22, 2022.

### **Agenda**

- 1:00 pm** Introduction
- 1:10 pm** CEC presentation on RPS eligibility of energy storage devices
- 1:40 pm** Q&A and Comment Period
- 3:00 pm** Adjourn

**Prepared questions to shape the direction of conversation and gather feedback on stakeholder concerns:**

1. How is the energy landscape changing as a result of energy storage?
2. What does procurement look like for renewable facilities paired with energy storage? Do contracts account for energy losses from storage?
3. What impacts do current RPS requirements have on storage development?
4. Should the CEC develop energy storage loss accounting requirements for specific technology types, configurations, or scale?
