## **STATE OF CALIFORNIA**

## STATE ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION

IN THE MATTER OF:

## THE 2021 INTEGRATED ENERGY POLICY REPORT (2021 IEPR)

DOCKET NO. 21-IEPR-01

ADOPTION OF THE 2021 INTEGRATED ENERGY POLICY REPORT

WHEREAS, the Warren-Alquist Act requires the California Energy Commission (CEC) in odd-numbered years to "conduct assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices" and to "use these assessments and forecasts to develop and evaluate energy policies and programs that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety" (Public Resources Code § 25301, subd. (a)); and to update these assessments and forecasts in even-numbered years (Public Resources Code § 25302, subd. (c)); and

WHEREAS, on March 16, 2021, the Lead Commissioner issued a Scoping Order for the 2021 Integrated Energy Policy Report stating that the 2021 Integrated Energy Policy Report would address the following four major topics as well as an analysis of the benefits of transitioning to a clean transportation system: (1) energy reliability over the next five years; (2) natural gas outlook and assessments; (3) building decarbonization and energy efficiency; and (4) energy demand. To this end, the CEC has produced the 2021 IEPR as four volumes and an appendix consisting of: (1) a report on actions needed to reduce the greenhouse gases (GHGs) related to buildings in which Californians live and work, with an emphasis on energy efficiency, and reducing GHGs from the industrial and agricultural sectors; (2) a report on actions needed to increase the reliability and resiliency of California's energy system; (3) an assessment of the evolving role of gas in California's energy system, both the importance in near-term reliability and the need for the system to evolve as California works to achieve carbon neutrality by 2045; (4) an assessment of California's energy demand outlook, including a forecast to 2035 and long-term energy demand scenarios to 2050; and (5) an evaluation of the benefits of California's Clean Transportation Program.

**WHEREAS,** 21 public workshops were held between January 2021 and December 16, 2021, to solicit input from stakeholders on these topics; and

WHEREAS, the Warren-Alquist Act requires the CEC to consult with various entities in preparing the IEPR including the California Public Utilities Commission (CPUC), CPUC Public Advocates Office, California Air Resources Board, California

Independent System Operator (California ISO), Department of Water Resources, Department of Transportation, and Department of Motor Vehicles, and any federal, state, and local agencies it deems necessary (Public Resources Code §25302(d)), and the CEC has so consulted with these entities during preparation of the 2021 IEPR; and

**WHEREAS,** on December 7, 2021, the Lead Commissioner published the draft 2021 IEPR, Volumes I, II, IV, and the Appendix for public review and comment, and, after considering all comments received, published the proposed final version on February 1, 2022, along with a Notice of Intent to Adopt at this regularly scheduled Business Meeting; and

WHEREAS, the draft 2021 IEPR, Volume III on the evolving role of gas in California's energy system was published on January 12, 2022, and will be adopted at a later date; and

WHEREAS, the CEC has considered the application of the California Environmental Quality Act (CEQA) to the adoption of the *2021 Integrated Energy Policy Report, Volumes I, II, IV, and the Appendix*, and concluded that the adoption of these reports is not a "project" under CEQA, but that in the event that adoption were determined to be a project, that it would nonetheless be exempt from CEQA requirements pursuant to the "common sense" exemption (CEQA Guidelines, § 15061, subd. (b)(3)).

**THEREFORE BE IT RESOLVED,** the CEC hereby accepts, approves, and adopts the Final 2021 Integrated Energy Policy Report, Volumes I, II, IV, and the Appendix, incorporating any changes presented and adopted today along with any nonsubstantive changes such as typographical corrections, and directs CEC staff to make the document accessible to state, local, and federal entities, the public, and the Legislature.

## **CERTIFICATION**

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a Resolution duly and regularly adopted at a meeting of the CEC held on February 16, 2022.
