Questions unanswered during the Webinar

Dear Sir/Ma'am,

We had few questions (asked by our Vice President- Ms. Natalie Lorenz) which were unanswered during the webinar.

1. Would you agree that given the amount of LDES needed, many technologies and solutions are going to be needed in the mix, as long as they work, such that there isn't a winner take all or just a few winners take all across the state?
2. How would we learn the lessons learned from the past decade which was mentioned as being part of the input to the solicitation this year?

Regards
