CEC-70 (Revised 11/2021)

*IN THE MATTER OF:*

*2022 Integrated Energy Policy Report (2022  
IEPR)*

Docket No. 22-IEPR-03 (Electricity  
Forecast)

NOTICE OF REMOTE-ACCESS  
WEBINAR

RE: Forms and Instructions for  
Submitting Transmission Information

## **Notice of IEPR Staff Workshop on Forms and Instructions to Collect Transmission Data from Load Serving Entities and Transmission Owners**

**May 26, 2022**

2:00 p.m. - 4:00 p.m.

**Remote Access Only**

The California Energy Commission (CEC) will host a remote-access workshop to solicit comments on proposed transmission-related data collection and analyses for the 2023 Integrated Energy Policy Report (2023 IEPR) relating to electricity resource plans. Data collection is occurring through the 2022 IEPR Update Docket for use and analysis in the 2023 IEPR.

The public can participate in the workshop consistent with the direction provided below. Please note that the CEC aims to begin promptly at the start time posted and the end time is an estimate based on the agenda proposed. The workshop may end sooner or later than the posted end time depending on various factors.

### **Agenda**

CEC staff will present proposed forms and instructions for transmission-related data. After the presentation, there will be time for participant discussion and public comments.

A detailed meeting schedule with draft forms and instructions will be posted prior to the webinar at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-IEPR-03>.

### **Background**

The CEC is directed by California Public Resources Code Section 25301 to regularly assess all aspects of energy demand and supply in order to develop energy policies that conserve resources,

protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety. These assessments are the foundation for analyses and policy recommendations to the Governor, Legislature, and other agencies. To carry out these assessments, "the Commission may require submission of demand forecasts, resource plans, market assessments, and related outlooks from electric, natural gas utilities, transportation fuel and technology suppliers, and other market participants" (California Public Resources Code Section 25301(a)(2)). The CEC is also required to publish a strategic plan for California's transmission grid and include it in the IEPR. (California Public Resources Code Section 25324)

The proposed transmission forms and instructions require transmission owners to provide information about their transmission systems and Load Serving Entities (LSE) to provide information on power purchases or generation that require transmission upgrades in order to serve California loads.

This information will provide a foundation for the analyses and recommendations in the 2022 IEPR, including resource assessment and analysis of progress towards the state's energy goals. The data will also be used to develop CEC forecasts, which are used in the California Public Utilities Commission procurement and resource adequacy proceedings, as well as in transmission planning studies conducted by the California Independent System Operator. This information will also provide the CEC with a better understanding of LSE planning assumptions and supply resource commitments, allowing the CEC to assess current conditions in electric transmission system infrastructure needs and to identify major statewide trends affecting electricity transmission. Forms and instructions for submitting transmission information will be posted to the docket 22-IEPR-03 a few days prior to the webinar.

### **Remote Attendance Instructions**

The workshop may be accessed by clicking the Zoom link below or visiting [Zoom](https://zoom.us) at <https://join.zoom.us> and entering the ID and password for the workshop listed below. If you experience difficulties joining, contact Zoom at (888) 799-9666 ext. 2, or the Public Advisor at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov) or at (916) 957-7910.

### **Link to Workshop:**

<https://energy.zoom.us/j/92455506317?pwd=N0NaRXc2bEYyUEpKNllaNGVsWWlzUT09>

**Workshop ID:** 924 5550 6317

**Workshop Password:** 192266

Use the "raise hand" feature to indicate you want to speak and the event facilitator will indicate when your line is open and ready for you to make comment.

**To Participate by Telephone**, dial (213) 338-8477 or Toll free (877) 853-5257. When prompted, enter the ID: 924 5550 6317. To comment, dial \*9 to "raise your hand" and \*6 to mute/unmute your phone line.

**Zoom's closed captioning service** will be enabled for the meeting. Attendees can use the service by clicking on the "live transcript" icon and then choosing either "show subtitle" or "view full transcript". The closed captioning service can be stopped by exiting out of the "live transcript" or selecting the "hide subtitle" icon. Closed captioning cannot be exited by phone.

### **Public Comment**

**Oral comments** will be accepted at the end of the workshop. Comments may be limited to three minutes or less per speaker and one person per organization. If participating via Zoom's online platform, use the "raise hand" feature so the administrator can announce your name and unmute you. If you are participating by telephone, press \*9 to "raise your hand" and \*6 to mute/unmute.

**Written comments** must be submitted to the Docket Unit by 5:00 p.m. on June 3, 2022.

Written and oral comments, attachments, and associated contact information (including address, phone number, and email address) will become part of the public record of this proceeding with access available via any internet search engine.

The CEC encourages use of its electronic commenting system. Visit the [e-commenting page](https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=22-IEPR-03) at <https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=22-IEPR-03>, which links to the comment page for this docket. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached as a downloadable, searchable document in Microsoft® Word or Adobe® Acrobat®. The maximum file size allowed is 10 MB.

Written comments may be submitted by email. Include docket number 22-IEPR-03 and "Electricity Forecast" in the subject line and email to [docket@energy.ca.gov](mailto:docket@energy.ca.gov).

A paper copy may be sent to:

### **Public Advisor and Other CEC Contacts**

The CEC's Public Advisor provides the public with assistance in participating in CEC proceedings. For information about how to participate in this workshop or to request interpreting services or other reasonable modification and accommodations, reach out by phone at (916) 957-7910 or via email at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov). Requests should be made for interpreting services, reasonable modifications and accommodations as soon as possible but at least five days in advance of the workshop. However, the CEC will work diligently to meet all requests based on the availability of the service or resource requested.

**Direct media inquiries** to [mediaoffice@energy.ca.gov](mailto:mediaoffice@energy.ca.gov) or (916) 654-4989.

**Direct general inquiries** regarding the transmission-related data requests to Mark Hesters at [mark.hesters@energy.ca.gov](mailto:mark.hesters@energy.ca.gov) or (916) 931-8942.

### **Availability of Documents**

Documents and presentations for [this meeting will be available](#) at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-IEPR-03>

When new information is posted, an email will be sent to those on the Integrated Energy Policy Report and Electricity Issues list subscriptions.
