### **Background**

Assembly Bill 841 (Ting, Chapter 372, Statutes of 2020) enacted the School Energy Efficiency Stimulus Program, which is referred to as the CalSHAPE Program, and includes two grant programs: the CalSHAPE Ventilation Program and the CalSHAPE Plumbing Program. The CalSHAPE Ventilation Program provides funding to California schools to assess, maintain, and repair ventilation systems. The CalSHAPE Plumbing Program provides funding to California schools and state agencies to replace aging and inefficient plumbing fixtures and appliances with water-conserving plumbing fixtures and appliances. The current edition of the CalSHAPE Ventilation Program Guidelines were approved by the CEC on August 11, 2021, and both CalSHAPE Programs launched in fall 2021.

The Second Edition Draft Guidelines for the CalSHAPE Ventilation Program were posted for review and comment on April 15, 2022, and include the following changes:<sup>1</sup>

- Clarifying what documents are acceptable to demonstrate proof of ownership or complying lease (Chapter 1 and 3).
- Changing the application correction period from 10 calendar days to 15 business days, excluding state and federal holidays (Chapter 3).
- Providing additional detail on the requirements for the final invoices submitted with the final reporting after completion of CalSHAPE Ventilation or Plumbing Program project work (Chapter 4).
