Redwood Coast Energy Authority Comments

Additional submitted attachment is included below.

REDWOOD COAST Energy Authority

County of Humboldt • Arcata • Blue Lake • Eureka • Ferndale • Fortuna • Rio Dell • Trinidad • Humboldt Bay Municipal Water District

The Redwood Coast Energy Authority (RCEA) is a CCA in Humboldt County as well as being an implementer of a Local Government Partnership (LGP) with PG&E and Program Administrator of Energy Efficiency Programs through the CPUC. Our organization has been using the ECAA and ECAA-Ed programs to fund many projects in our area and are excited about the upcoming changes and expansion.

We work closely with local tribes and would like to provide some examples of the types of buildings that our tribes own and operate that we would like to request the ECAA loans be able to cover. We understand that focusing on buildings that provide a community benefit makes the most sense.

- Tribal government buildings
- Head Start program building
- School buildings
- Fuel Stations owned and operated by the tribe
- Small Community Grocery Stores
- Fire stations

RCEA also supports the recommendation that small loans, for example under \$25,000, should follow a more streamlined and expedited process.

Thank you for taking the time to read our comments.

Sincerely,

Patricia Terry, CEM
Senior Project Manager
