Public Comments (3:45–4:15)

Closing Remarks and Adjourn (4:15-4:30)

About the Speakers

Dr. Manuel Pastor

Dr. Manuel Pastor, the Distinguished Professor of Sociology and American Studies & Ethnicity and the Director of the Equity Research Institute at the University of Southern California, will provide keynote remarks.

Dr. Pastor's research has generally focused on issues of the economic, environmental, and social conditions facing low-income urban communities — and the social movements seeking to change those realities. He has authored multiple books, including [Solidarity Economics: Why Mutuality and Movements Matter](https://solidarityeconomics.org/se-book/), co-authored with Chris Benner, (available at <https://solidarityeconomics.org/se-book/>) and [South Central Dreams: Finding Home and Building Community in South L.A.](#), co-authored with Pierrette Hondagneu-Sotelo (available at

<https://www.southcentraldreams.com/>). Dr. Pastor's previous book, [Equity, Growth, and Community: What the Nation Can Learn from America's Metro Areas](#) (available at <http://growingtogethermetro.org/>), co-authored with Chris Benner (UC Press 2015), argues how inequality stunts economic growth and how bringing together equity and growth requires concerted local action. Learn more about [Dr. Pastor](#) at <https://dornsife.usc.edu/eri/manuel-pastor/>.

Silvia Paz and Dr. Chris Benner

Silvia Paz, the Executive Director of Alianza Coachella Valley (Alianza), and Dr. Chris Benner, Professor of Environmental Studies and Sociology at the University of California, Santa Cruz and the current Director of the Everett Program for Technology and Social Change and the Institute for Social Transformation, will provide a joint presentation about the localized indicators work they are conducting in the Salton Sea region that takes a "solidarity economics" approach to address widening income inequality, rising economic insecurities, and growing social and racial fragmentation while also promoting innovation and economic growth.

Dr. Benner's research examines the relationships between technological change, regional development, and the structure of economic opportunity, focusing on regional labor markets and the transformation of work and employment. He has authored or co-authored seven books and more than 75 journal articles, chapters and research reports. Learn more about [Dr. Benner](#) at <https://chrisbenner.sites.ucsc.edu/>.

Alianza (ah-lee-ann-zah) is a union of people and/or organizations working together for a common goal. Alianza is the only alliance in the Coachella Valley bringing together community members, nonprofits, and government to lead efforts for a thriving region. Previously known as Building Healthy Communities, its expanding work is built around leadership development and an understanding that healthy and economically prosperous communities exist only when the population is represented in all decisions impacting daily lives. That is why Alianza works to make people active players in the processes shaping policies and public funding priorities. Learn more about [Alianza](#) at <https://www.alianzacv.org/staff/silvia-paz/>.

Vision y Compromiso (VyC)

Maria Lemus, the Executive Director of VyC, and several VyC Promotoras will present their "promotor model," that enables promotores and community health workers as liaisons between their communities and health and social service providers. After the presentation, the promotoras will participate in a discussion with the audience exploring the benefits of regional engagement and effective local approaches.

VyC is committed to creating and sustaining a statewide, consumer-driven approach to promoting the health and well-being of Latinos/as and their families by supporting Promotores, leaders, community health workers and others who serve the community in ways consistent with the values and scope of practice of the Promotor model. Created by promotores, VyC represents the collective voice of Promotores and responds to the ideas, needs and priorities they identify in their communities. By investing in Promotores as leaders of change, VyC strengthens their collective voice and increases their ability to advocate for policies and practices to improve individual and family well-being and create lasting community change. Learn more about [Vision y Compromiso](#) at <https://visionycompromiso.org/>.
