Subject: SAVE THE DATE: Please Hold August 11, 2022 at 3:00 p.m. for a Potential Informational Hearing and Site Visit in Rosamond, California

The California Energy Commission (CEC) has publicly posted its agenda for the Business Meeting on July 13, 2022, including its consideration of a proposed order recommended by the Executive Director finding that the application for certification for the Gem Energy Storage Center (Gem AFC) is complete. Pursuant to California Code of Regulations, title 20, section 1709.7(a), within 45 days after the acceptance of an application for certification, the presiding member shall hold one or more informational hearings and site visits as close as practicable to the proposed sites.

In anticipation of the adoption of the proposed order on July 13, 2022, as a convenience to the parties and the public in their planning, the Presiding Member is considering Thursday, August 11, 2022 as the date to convene the informational hearing on the Gem AFC in the community of Rosamond in Kern County, California and conduct the visit to the proposed site.

The Hearing Officer will secure publicly accessible meeting facilities at the Rosemond Community Services District, along with necessary teleconferencing equipment to enable remote participation by the public. The applicant is advised to arrange round-trip ground transportation for the decisionmakers, the parties, and the public, between the Rosamond Community Services District and proposed site.

Please note that after the CEC's formal adoption of the order finding the Gem AFC complete, the Presiding Member will post a Notice of Informational Hearing and Site Visit pursuant to California Code of Regulations, title 20, section 1709.7(a), which will include further detail on how the parties, interested persons, and the public may participate in the informational hearing and site visit.
