Close Diablo Canyon nuclear reactor immediately and forever!

Nuclear power produces waste that is lethal "forever." Renewable energy is comparatively cheap and fast. Diablo Canyon is subject to earthquakes. PG&E is a corporate felon. Do not trust or deal with them. Diablo Canyon is both elderly--and subject to breakdowns--and unnecessary.

Do you want your grandchildren to live and thrive? Then ACT to preserve our climate, not enhance our early demise. Nuclear power is a dinosaur. Look forward not backward. And so on, and on, and on, and on.

KEEP DIABLO CANYON SHUT DOWN FOREVER!!! And all other nuclear reactors too.
