Close Diablo

I am extremely concerned that there is review of the decision to close Diablo Canyon nuclear power plant. This is a dangerous and costly idea, the opposite of what we should be doing. Have we learned nothing? We've paid out millions to decommission this old and unreliable plant. I do not feel confident the PG&E is up for the task or trustworthy.

Please address how you would store the ongoing radioactive waste and how the cooling system would be corrected.

Sincerely,
Kathryn Reid
California voter and taxpayer
