Stop Diablo

Please do not allow Diablo Canyon Nuclear Power Plant to operate. My goodness, I've been protesting this power plant for over 40 years!

The operation of Diablo discourages the use of renewables.

Diablo is old and unreliable. Maintenance has been deferred. The last replacement for aging parts resulted in a seven-month periodic shutdown of Unit 2 during 2020-21.

PG&E is a corporate felon, responsible for nearly 100 deaths, thousands of homes and businesses burned to the ground, and hundreds of thousands of acres scorched. PG&E can not be trusted.

Diablo is seismically vulnerable. It sits near multiple active earthquake faults.

The proposal to extend the operation would violate the closure agreement established in 2016 and codified by the California legislature and the CPUC in 2018.

Ratepayers and taxpayers have already paid out \$85 million in mitigating costs to the impacted communities and millions more toward decommissioning costs.

Please do the right thing.
